Bean to Cup or Freshbrew Coffee and now Freshbrew Tea...

Versatile, fully featured hot drinks solution!

With its large ingredient and cup capacity the **Genesis** has been designed to provide delicious, thirst quenching hot drinks around the clock.

The machines offer a full range of instant, freshbrew and bean to cup drinks and provide the perfect solution for offices, conference facilities, restaurants and cafeterias, anywhere in fact where a high quality beverage needs to be served quickly and efficiently.

So, select your favourite from the menu, push the button, and enjoy the experience!

...the choice is yours!

Now you can savour the aroma and full flavour of coffee brewed from the bean, enjoy a long smooth freshly brewed filter coffee, or relax with a delicious freshly brewed tea, all from the same machine....the Genesis B2C!

The Genesis bean to cup features the unique CoEx® brewer. This compact solution allows full flavoured bean to cup selections as well as freshbrew coffee to be produced from a single unit.

The Genesis range now includes the new B2C with freshbrew tea option, further extending the versatility of this highly specified machine family!

Customer Interface

- Intuitive build-a-drink interface
- Back-lit buttons enable easy drink selection
- Large LCD display provides clear and concise information

Motorised Dispense Head

- Provides 2 dispense positions for hot drinks and hot water
- Prevents cross contamination between vends

Choice of Payment System

- Compatible with established MDP coin and cashless systems

Cup Drop Unit

- Large 230 cup capacity from automatic cup dispenser
- Able to vend both plastic and paper cups
- Paper cups help to promote the coffee house experience to the customer
- Cup drop unit can be easily adjusted to accept 70z or 90z cups increasing the unit's versatility

SureVend™ Guaranteed Product Delivery

The **SureVend™** product delivery feature guarantees that the selected drink is only dispensed when the sensors detect a cup in the dispense area.

The system works by attempting to drop a cup and deliver the drink up to 3 times. If the drink is not dispensed after 3 attempted vends the customer is given the option of using their own mug or accepting a refund.

The Genesis Bean to Cup Advantage:

- Produces low pressure freshbrew coffee and high pressure bean to cup selections from single, compact CoEx® unit
- Versatile CoEx® unit also allows bean to cup coffee selections to be brewed under low pressure
- Visible bean container with sealable lid keeps beans fresh for longer
- B2C machine also available with freshbrew tea option, extending its market leading position
- Simple lever operated locking device facilitates removal of CoEx® brewer. Unit can be quickly and easily cleaned in hot water

Enjoy a smooth freshly brewed coffee or tea beverage at any time!

Double freshbrew models feature a compact, paperless double brewer capable of delivering both freshbrew tea and coffee selections through the same unit.

The drinks are produced in separate brew chambers ensuring that there is no cross contamination between vends.

Why choose Genesis?

- Instant, freshbrew and bean to cup models available
- **SureVend™** guaranteed product delivery system fitted as standard
- Unique CoEx® brewer produces true espresso based selections from beans plus traditional freshbrew coffee
- Intuitive, user-friendly build-a-drink keypad
- Flexible cup drop unit capable of vending paper and plastic cups
- Easy change graphics and drink selections enable quick updates for product promotions
- Operator friendly! Easy to clean, fill and maintain
- Common components and simple machine programming

Genesis Double Freshbrew Features:

- Produces both freshbrew coffee and leaf tea selections from single compact unit
- Efficient wiper system ensures no cross contamination between vends
- Consistent drink quality from every vend
- Paperless double freshbrew
- Unit is easy to clean and maintain
- Both chambers utilise fine mesh screens which are easily removed for cleaning

Just push the button, take your drink and enjoy the experience!

G·E·N·E·S·I·S

“...savour the full flavour of coffee brewed from fresh beans, a smooth freshbrew coffee suitable for all day drinking or maybe a refreshing, freshly brewed leaf tea...”
